

Nutritional Milk Products

Stage 1 (400g / 800g)

Stage 1 infant formula is a specially formulated milk designed to meet the nutritional needs of newborns and infants up to six months old, providing essential vitamins, minerals, and proteins for healthy growth and development.

Stage 2 (400g / 800g)

Stage 2 infant formula is tailored for babies aged six to twelve months, offering a balanced blend of nutrients to support their growing energy needs and developmental milestones.

Stage 3 (400g / 800g)

Stage 3 infant formula is designed for toddlers aged twelve months and older, providing advanced nutrition to support their continued growth, active lifestyle, and developmental progress.

Senior Age nutritional milk supplement (400g)

Seniors nutritional milk supplements are fortified beverages tailored to meet the dietary needs of older adults, providing essential nutrients like calcium, vitamin D, and protein to support bone health, muscle strength, and overall wellness.

Balanced Growth Formula (5+)

Children's growth formula is a nutrient-rich supplement designed to support the overall growth and development of children, providing essential vitamins, minerals, and proteins to help meet their dietary needs.

Premium Australian Made full cream milk powder (500g / 1kg)

Full cream milk powder is made from evaporated full cream milk, offering a convenient and long-lasting source of calcium, protein, and vitamins for use in cooking or as a beverage when reconstituted with water.

Premium Australian Made low fat cream milk powder (500g / 1kg)

Low-fat milk powder is derived from skimmed milk, providing a convenient and shelf-stable source of protein, calcium, and vitamins, with reduced fat content compared to full cream milk powder.

Lifestyle products

Essential Greens

Greens supplements are concentrated sources of nutrients derived from fruits, vegetables, and other plant-based ingredients, providing a convenient way to increase daily intake of vitamins, minerals, and antioxidants.

Gamers formula (280g)

Gamers supplements are specially formulated to enhance focus, concentration, and energy levels, aiming to improve cognitive performance and endurance during gaming sessions.

Wellness Products

Immune Boost (400g)

Immune boost supplements are formulated with vitamins, minerals, and herbs known to support the immune system, aiming to enhance the body's natural defenses against infections and illnesses.

Colostrum Powder (400g)

Colostrum powder is a supplement made from the first milk produced by mammals after giving birth, rich in antibodies, proteins, and growth factors, which may support immune function, gut health, and athletic performance.

Pure Protein Collagen Blend for Men (400g)

Pure Protein Collagen blend for Men is a supplement designed with collagen peptides and additional nutrients to support men's muscle recovery, joint health, and overall collagen needs.

Pure Protein Collagen blend for Woman (400g)

Pure Protein Collagen blend for Women is a supplement specifically formulated with collagen peptides and targeted nutrients to support women's skin, hair, nails, and overall collagen production.

Collagen peptide blend (400g)

Collagen peptide blend is a supplement that combines different types of collagen peptides, which are hydrolyzed for easy absorption, supporting skin health, joint function, and overall collagen production in the body.

Prebiotics nutritional powder (400g)

Prebiotics nutritional powder is a dietary supplement containing prebiotic fibers that promote the growth of beneficial gut bacteria, supporting digestive health and overall health.

Probiotics nutritional powder (400g)

Probiotics nutritional powder is a supplement containing live beneficial bacteria that support digestive health, immune function, and a balanced gut microbiome.

Lactoferrin Powder (150g)

Lactoferrin powder is a supplement derived from milk protein, known for its antimicrobial and immune-modulating properties, supporting gut health and immune function.

Lactoferrin + Probiotics (50g)

Lactoferrin + probiotics powder is a combination supplement containing lactoferrin and beneficial bacteria, designed to promote gut health, support immune function, and maintain a balanced microbiome.

Diabetic nutritional powder (400g)

Diabetic nutritional powder is a specialized blend of nutrients designed to support the dietary needs of individuals with diabetes, helping to manage blood sugar levels while providing essential vitamins and minerals.

Sports supplements

Protein Powder (1kg / 2.3kg)

Protein powder is a dietary supplement that provides a concentrated source of protein, essential for muscle building, recovery, and overall health.

Whey Protein Concentrate (1kg / 2.3kg)

Whey Protein Concentrate is a high-quality protein supplement derived from milk, offering a rich source of essential amino acids to support muscle growth and recovery.

Whey Protein Isolate (1kg / 2.3kg)

Whey Protein Isolate is a highly refined protein supplement with minimal fat and lactose, providing a fast-absorbing source of essential amino acids to support muscle growth and recovery.

Mass Gainer (2.5kg)

Mass Gainer is a calorie-dense supplement formulated with a blend of proteins, carbohydrates, and fats to help individuals increase muscle mass and overall body weight.

Pre-Workout (450g)

Pre-workout powder is a performance-enhancing supplement designed to boost energy, focus, and endurance during exercise.

Post Workout (450g)

Post-workout powder is a recovery supplement formulated to replenish nutrients, support muscle repair, and reduce soreness after exercise.

Fat Burners (250g)

Fat burners are dietary supplements designed to increase metabolism, promote fat oxidation, and suppress appetite to aid in weight loss.

Amino blends (450g)

Amino blends are supplements containing a combination of essential and non-essential amino acids, supporting muscle recovery, growth, and overall health.

BCAA (250g)

BCAAs, or branched-chain amino acids, are a group of essential amino acids—leucine, isoleucine, and valine—that support muscle protein synthesis, reduce muscle soreness, and aid in recovery after exercise.

Creatine (250 / 500g)

Creatine is a natural compound that helps increase ATP (adenosine triphosphate) levels in the body, promoting muscle strength, power, and growth during high-intensity activities.

Men's Performance Enhancing Gummie Bear supplements. Pack of 60

Men's Performance Enhancing Gummie Bear supplements are a tasty and convenient way to support male vitality and energy levels, containing a blend of vitamins, minerals, and herbs aimed at enhancing physical and mental performance.
